

12,000 POUNDS

A truck like El Toro Loco® needs to go from **zero to thirty miles per hour in only 1.52 seconds** to achieve the proper launch velocity for a jump!

3

Layers of fire-retardant protection built into the athletes' custom-fitted fire suits.

Monster Jam® trucks can reach speeds of up to **70 MPH**, and one even reached a World Record speed of 100.31 MPH.

1,500

HORSEPOWER

Produced by the methanol-fueled engines in Monster Jam trucks (for comparison, the average pickup truck on the road produces 200–400HP).

38.906'

High jump height, in feet, reached by Ryan Anderson at Monster Jam World Finals XXI – that's as tall as a four-story building.

MONSTER JAM FACTS

The unbelievable feats of Monster Jam trucks like the crazy El Toro Loco defy all comprehension. Nothing can tame these wild beasts!
